

1. Download the installation version for BaseLine© by clicking on the link below then **Download**

<http://www.saasoft.co.uk/baseline/baselineshop.php>

Installation and Activation Instructions

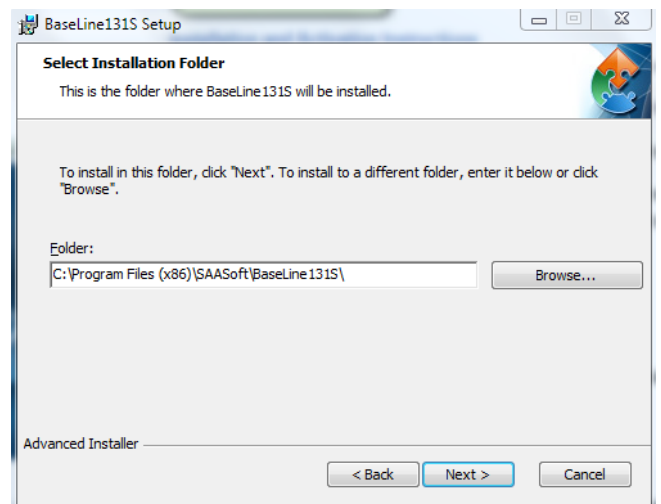

- 1. Click the button above to download BaseLine© (NB: Requires PC running Windows®).
- 2. Run the program to install and set up BaseLine©.
- 3. When BaseLine© starts you will be presented with a 16-letter Registration Code.

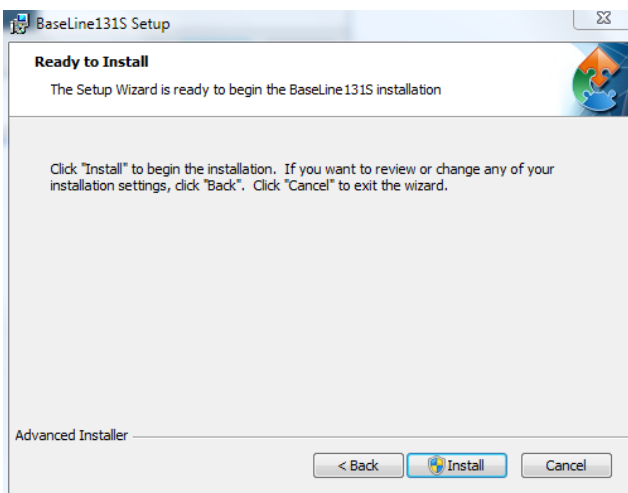

2. Run the BaseLine131S.msi installer file.

3. If you get a warning then you already have BaseLine© installed you will need to uninstall that version first.

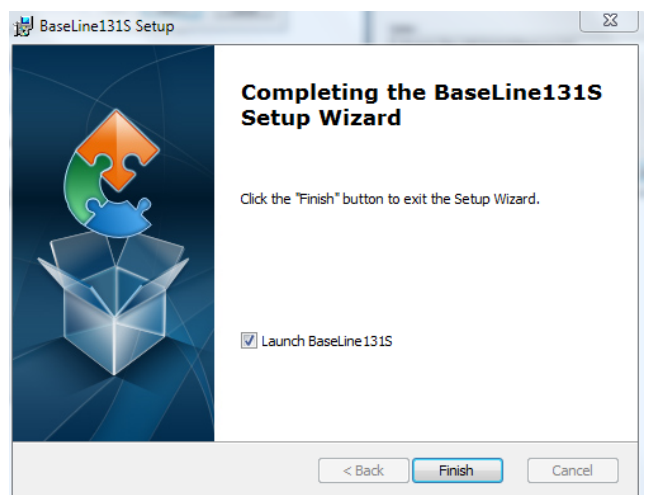

4. Click [Next >]

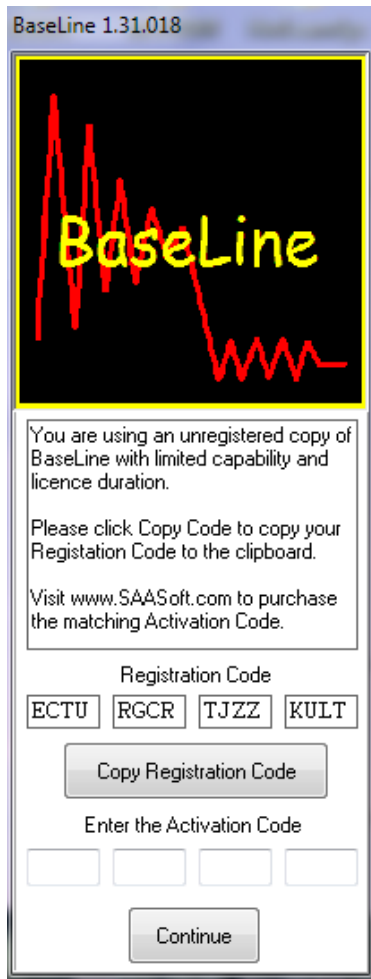

5. Click [Next >]

6. Click [Install]

7. Click [Finish]

8. After the BaseLine© Installation program has completed you should be able to start BaseLine© from the desktop icon.

9. Run BaseLine© from the desktop icon and you will be presented with a registration window.

10. Click “Copy Registration Code” to copy the 16-letter Registration Code to the Windows clipboard and paste into an email to baseline@saasoft.co.uk

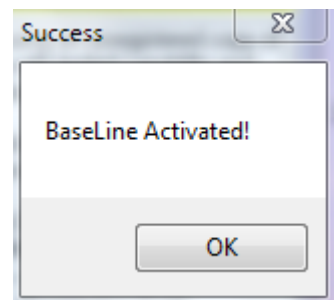

If you have a purchase order number or have been sent a reclaim code please include this with the email.

Your Registration Code is used to generate a matching 16-letter Activation Code which is returned by email (NB. This is not an automated process).

11. Click [Continue] to use BaseLine© in demonstration mode.

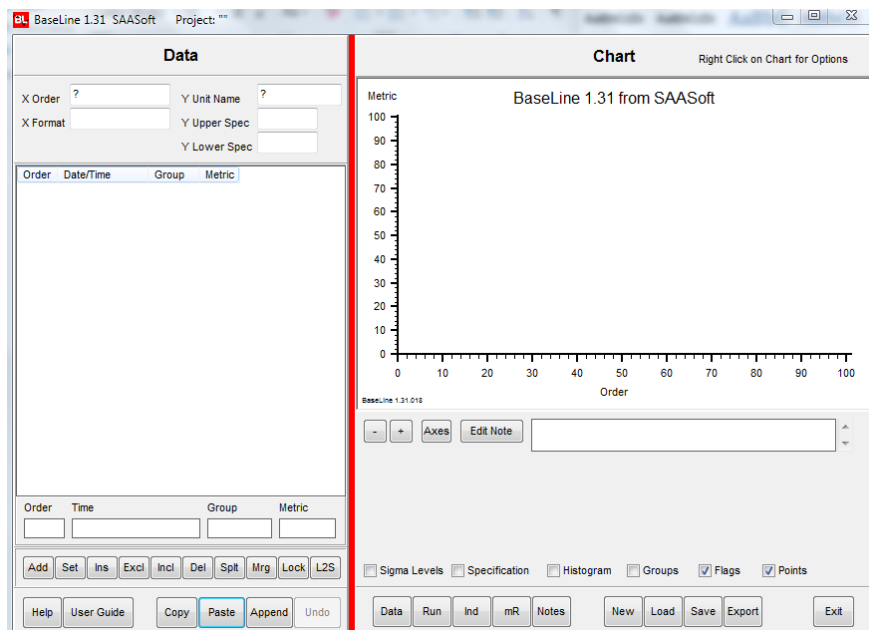

12. When your activation code arrives by email ... Run BaseLine© from the desktop icon, enter your Activation Code into the boxes shown and click [Continue].

You should get the message →

13. Click [OK] and BaseLine should start will all functionality fully enabled.

14. Once BaseLine© is running click the [User Guide] button to open the 70-page User Guide (NB. Needs Acrobat Reader). There should also be a link to the User Guide on your desktop.
