

## BaseLine© - System Behaviour Charts Product and Purchase Options

SAASoft

BaseLine© is an easy-to-use PC/Windows application for quickly converting time-series raw data into rich pictures called system behaviour charts (SBC). It uses the Individuals and Moving Range (XmR) charts and has a host of other innovative features that extend its applicability well beyond statistical process control (SPC).

BaseLine© is available in two versions:

- (1) The Standard version which is intended for individual and frequent users.
- (2) The Enterprise version which is intended for multiple and infrequent users.

### On-Line Purchase (Standard version)

- Download the BaseLine setup program from the [Download Link](#).
- Run the setup program to install the free limited-functionality version.
- Use the 16-letter Registration Code and the [On-Line PayPal link](#) to purchase the matching Activation Code.
- The return email will give the 16-letter Activation Code. Start BaseLine© and enter the Activation code.
- Once activated the full functionality will be unlocked and will be available without time limit.
- **Cost per unlimited-time license is £49.99 fully inclusive.**

### Purchase Order (Standard version)

- Email a purchase order for Standard licenses required to SAASoft Ltd at [sales@saasoft.co.uk](mailto:sales@saasoft.co.uk)
- Return email will contain invoice for payment a Reclaim Code for each license purchased.
- Get the BaseLine setup program from the [Download Link](#).
- Run the BaseLine setup program on each PC to get the unique Registration Code.
- Email the Registration Code and one Reclaim Code for each PC to [enquiries@saasoft.co.uk](mailto:enquiries@saasoft.co.uk)
- The return email will give the 16-letter Activation Code. Start BaseLine© and enter the Activation Code.
- Once activated the full BaseLine© functionality will be unlocked and available without time limit.
- **Cost per user license is £50.00 (ex VAT) and the licence is per individual user (not per machine).**

### Concurrent User License Contract (Enterprise version)

- This option is for organisations who want to offer BaseLine© to multiple concurrent users.
- This is more cost-effective and easier to manage with a larger number of users.
- Contact [enquiries@saasoft.co.uk](mailto:enquiries@saasoft.co.uk) for further information.
- **Cost: £100.00 (ex VAT) per concurrent user licence per annum.**

### System Requirements

1. PC-compatible computer running Microsoft Windows® (XP or later).
2. 20 Mb of free hard disc to install the application (including the 70-page pdf User Guide).
3. Minimum 800 x 600 resolution screen or better.
4. No other software dependencies.

*It is recommended that users have completed the Improvement Science Practitioner Level-1 training before using BaseLine© system behaviour charts for healthcare safety, flow, quality and productivity (SFQP) improvement.*

NB. Terms and Conditions subject to change without notice.

Version 1.5 (01/08/2017)
